

Simpala HR - Suggestions for HR System Improvements

- User

User Dashboard	Feature	Problem	Solution
	Employee profile details	That feature isn't here yet.	Add profile feature
	Leave Management	Here it does not include that leave types - No-Pay Leave, - Work From Home - Emergency Leave Option Show Statues: - Approved - Rejected - Cancelled Leave balance summary	Build includes that types
	Attendance	- Today's attendance status - Here include only Attendance type Present and Absent - Here this system does not have a Shift Management module (some Company work shift based)	- Instead of only Present/Absent, include: - PRESENT - ABSENT - LATE - HALF DAY - WORK FROM HOME - ON LEAVE This makes system more flexible. - Add Shift Management section here Employees should be able to: - Check In / Check Out button - View today's working hours - See monthly attendance summary - View attendance history - Request attendance correction
	Employee Documents	- Add the document feature - Employee Documents divided for the category (Medical Report, EPF Forms, Police Report)	
	Approvals feature	Without that feature, the user's details cannot be updated.	Add Time Off Requests Job Information Promotion
	Notification	Here this system does not have a Notification management module	Show: - Leave approval updates - Payroll processed message - Document expiry warning - Company announcements
	Payroll Section	Here user cannot see payslips, OT payment	Employee can: View monthly payslips

			• Download payslip PDF • See salary breakdown • View overtime payment • View EPF contribution summary
